Sukkur

Located As the **third-largest** city in Sindh and the **12th** most populous city in Pakistan, **Sukkur** occupies a prominent position on the western bank of the Indus River. The city is widely recognized for its historical significance, iconic landmarks, and proximity to Sindh's archaeological treasures. With hot, hazy summers and cool, dry winters, Sukkur offers a distinctive climate and a rich cultural identity. Home to the historic **Masoom Shah Jo Minaro**, the renowned **Sukkur Barrage**, one of the world's largest irrigation barrages, and the revered **Sadh Belo Island**, the city reflects a unique blend of history, culture, and engineering excellence. Situated opposite the historic town of **Rohri**, Sukkur continues to serve as an important center for commerce, education, and tourism in Upper Sindh.

CHARIMAN

Message:

It gives me immense pleasure to welcome you to **Sirajuddin Institute of Professional Studies (SIPS), Sukkur**. Our mission is to provide quality education that equips students with the knowledge, skills, and confidence required to excel in their chosen professions.

In affiliation with **Liaquat University of Medical & Health Sciences (LUMHS), Jamshoro**, SIPS offer academic programs designed to meet the growing demands of the healthcare sector. This initiative provides an excellent opportunity for the youth of Sukkur and the surrounding regions to pursue professional education close to home.

At **SIPS**, we are committed to academic excellence, practical learning, and research. Our aim is to create an environment where students can recognize their potential, strengthen their abilities, and achieve their educational and professional goals. We also strive to make quality education accessible through scholarships and financial assistance for deserving students.

Choosing the right institution is a crucial step toward a successful career. At **SIPS**, you will be guided by experienced faculty and provided with the opportunities to develop both professionally and personally. We encourage our students to serve society with competence, compassion, and integrity, contributing positively to the healthcare profession and the community.

I warmly welcome you to **Sirajuddin Institute of Professional Studies, Sukkur**, and wish you every success in your academic journey and future career.

ABOUT PHYSICAL THERAPY

Physical therapy is a degree-based healthcare profession that focuses on the prevention, assessment, diagnosis, treatment, and rehabilitation of physical impairments, injuries, and movement disorders. Through evidence-based techniques such as therapeutic exercise, manual therapy, electrotherapy, and patient education, physiotherapists help restore mobility, relieve pain, improve function, and enhance overall quality of life without relying solely on medication or surgery.

Physiotherapy plays a vital role in the management and rehabilitation of a wide range of conditions, including:

- Neck and back pain
- Sports and occupational injuries
- Postural disorders
- Arthritis and joint conditions
- Stroke rehabilitation
- Spinal cord injuries
- Neurological disorders

Physiotherapists provide specialized care for conditions affecting various body systems, including:

- **Cardiovascular:** Cardiac rehabilitation and recovery after heart-related conditions.
- **Respiratory:** Asthma, chronic obstructive pulmonary disease (COPD), and cystic fibrosis.
- **Neurological:** Stroke, Parkinson's disease, multiple sclerosis, spinal cord injuries, and other neurological disorders.
- **Musculoskeletal:** Back and neck pain, sports injuries, arthritis, post-operative rehabilitation, and movement disorders.

Physiotherapists work in hospitals, rehabilitation centers, sports clinics, community healthcare settings, educational institutions, and private practice, contributing significantly to the promotion of health, recovery, and overall well-being.

OBJECTIVES OF THE PROGRAM (DPT)

- To develop competency in physiotherapy assessment, clinical examination, diagnosis, treatment planning, rehabilitation, prevention, and health promotion.
- To prepare graduates to promote, restore, and maintain the health and functional well-being of individuals and the community.
- To equip students with effective professional communication and interpersonal skills for collaborative healthcare practice.
- To enable graduates to educate patients and the public about healthy lifestyles, disease prevention, and the role of physiotherapy in improving quality of life.
- To produce ethical, skilled, and compassionate physiotherapists committed to delivering evidence-based patient care and contributing to the advancement of the healthcare system. Educating and planning maintenance and support programs to prevent re-occurrence, re-injury or functional decline.

COURSE (APPROVED BY HEC)

Doctor of Physiotherapy (DPT) Degree Program is five (05) years degree program and each year is divided into two (02) semesters and total ten (10) Semesters.

ANATOMY LABORTORY

The Department of Anatomy maintains lab and learning resource facilities configured to support the instruction of human anatomy at all levels. The modern, fully-equipped facilities are also appropriate for numerous other activities, including skills training, research and development, and lab skills practice. Consistent with the approach that models, together with medical visualization technologies provide the ideal environment for anatomy study.

MANUAL THERAPY LABORATORY

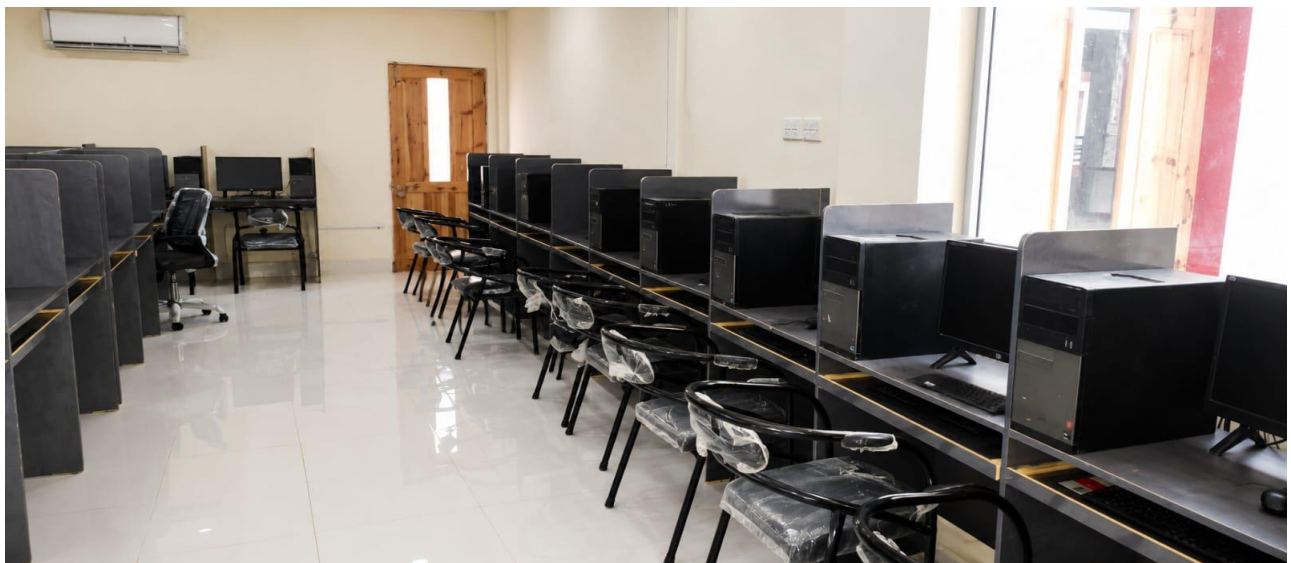

The lab is designed to provide a teaching environment for skills in musculoskeletal physical therapy through interactive learning and clinical scenarios simulation. The lab offers an environment for the students to practice skills of orthopedic and basic physical therapy assessment. The lab provides a spacious area for manual therapy skills training, orthopedic surgery and other musculoskeletal conditions rehabilitation. The lab is also the location where the student practices skills for therapeutic exercises.

PHYSIOLOGY/ SCIENCE LABORATORY

The Physiology Laboratory introduces students to laboratory techniques in the study of physiology and provides demonstrations of processes learned in the Human Physiology. Laboratory exercises cover a wide range of topics from classic experiments in muscle, nerve, and cardiac physiology to human exercise and ventilation studies. Students apply statistical analyses to their data and develop skills in the design and interpretation of experiments.

COMPUTER LAB

Computer Labs serve as physical learning destinations providing students with up-to-date computing tools, software, printing and other technology resources to accomplish their academic goals for instruction, research and presentation.

KINESIOLOGY LABORATORY

Our dedicated Kinesiology labs serve multiple uses, including student lab activities and faculty and student research. It is aimed at improving human health and performance & to engage in cutting-edge research in the fields of kinesiology, motor development, sport psychology, biomechanics, basic science, and more. It includes a well- equipped therapeutic gymnasium, with latest facilities. It is designed to rehabilitate patients and to provide fitness programs for - Sports persons/ obese people etc. The overall aim of this gymnasium is to provide practical exposure to the students.

LIBRARY

The institute has a well-stocked library where students do their studies and borrow reading material. A wide variety of e-books is also available to students. The library is committed to support teaching, learning and research by developing and promoting the systems that are useful in enhancing access to related information, introducing innovative services and acquiring resources that could encourage synthezation of thoughts, thus contributing into transfer of knowledge.

CHEMISTRY & PHARMACEUTICAL LABORATORY

Chemistry & pharmaceutical lab provides students with a- research-inspired laboratory experience that "introduces standard biochemical techniques in the i-context of investigating current and exciting research topics. It deals in chemical properties and reactions, and the lab provides students an opportunity to observe these principles first hand and to practice chemical techniques.

ELECTROTHERAPY & MEDICAL PHYSIOCS LABORATORY

Electrotherapy lab is well equipped with equipment of LASER, Ultrasonic therapy, Interferential the Neuro Muscular Electrical Stimulator etc., Practicing in the labs gives excellent opportunity for the students to sharpen their clinical acumen by 'hands on' exposure under guidance of experienced faculty.

CLASS ROOM

The classrooms are spacious, well-equipped, ventilated & brightly illuminated along with advanced presentation audio visual equipment and comforted furniture to deal with the needs of both faculty and students, ensuring each student gets specialized attention and all the space they need to express their creativity. Each classroom also contains state of the art equipment needed for presentations, projects or workshops, and IT help is readily available for students and faculty.

PHYSIOTHERAPY OPD

The Physiotherapy Outpatient Department (OPD) provides comprehensive assessment, treatment, and rehabilitation services for patients with musculoskeletal, neurological, cardiopulmonary, and sports-related conditions. Equipped with modern physiotherapy facilities, the OPD offers individualized treatment plans based on evidence-based practice. Under the supervision of experienced physiotherapists, students gain valuable clinical exposure and hands-on training. The OPD is committed to promoting recovery, improving functional independence, and enhancing the overall quality of life of patients.

COURSE OF STUDY

This is a five years undergraduate program of full-time study. Each year of study comprises of 2 semesters, the duration of each semester is 18 weeks, the first two years cover the basic medical sciences, communication skill and basic physiotherapy concepts. The last three years will cover clinical medical sciences along with practical physical therapy applications.
